

# B1-MT8 FIBER CLEAVER

Weight: 180g  
Size: 63Wx 65Dx60H(mm)

BISMON's Fiber Cleaver mini type model: B1-MT8 is high precision optical fiber cleaver is used for precision cutting single core fiber tool, suitable for FTTH optical fiber to the home. Cutting angle is smaller and more precise, do not need special skill. What's more, small size fiber cleaver is easy to carry. Under the condition of guarantee stability at the same time, more important is relatively affordable price, optical fiber collector, convenient installation optical: simple fiber bin.

### Specification:

- The average cleaver angle: < 0.8 degrees
- Cleaver length: 5-20mm
- Blade life: 48,000 fiber core (1000 fiber core x16 blade end face x 3 blade height)
- Optical fiber cladding diameter: 125um
- Fiber coating diameter: 5G cable, 2.1mm, 1.6mm, 250-900um
- Optical fiber type: Single Core
- Size: 63Wx 65Dx 60H (no including bin)
- Weight: 180g
- Blade model: 0711

Coated outer diameter  
5G cable, 2.1mm, 1.6mm, 250um-900um
